**VIDEO RECORDING / SHOOTING:** The competitor should be shot preferably from the profile, while during the whole shooting period the whole figure of the competitor, including the designated area, must be in a continuous shot. Recording start by bowing (REI) against the targeting area, and with instruction to start the timer. The recording ends with the instruction JAME (during the time limit, which is tracked by the recorder, or after the sound signal ).

1. The time limit for video recording is set for the category from 9 to 13 years for a duration of 30 seconds.
2. The time limit for video recording is set for the category from 14 years and higher for duration of 45 seconds

### Camera position for recording

In below, we present the evaluation scoreboards as an aid for the judges in evaluating the individual performance. The scoreboard are divided into part of the evaluation of the technical and physical level of the performance. The evaluation must be divided into a technical and a physical part due to solve the possible equality of the final score of the competitors.
